

TacTiles®

Glue-free carpet tile installation.

The combination of simplicity, speed and great environmental qualities make TacTiles the perfect fit for Interface carpet tiles.

Inspired by the gecko's ability to seemingly "stick" to surfaces, TacTiles connect the carpet tiles to each other, creating a 'floating floor' that doesn't shrink or expand. That's how we eliminate the need for glue. No damage to the subfloor and no sticky mess during the installation.

TacTiles make carpet tile installation easy, quick and clean.

ReEntry®

A new home for your used floor.

Interface takes your used carpet tiles and puts them to good use – by making sure they get reused by small businesses driving the circular approach or charities and community groups to benefits those who really need it. Plus our products are designed to be fully recyclable, to make new carpet tiles for the future. Nothing goes to landfill.

It's part of our commitment to working in a way that's better for the planet and everyone. For over 25 years, our pursuit of sustainability has motivated our every choice. Globally, we prevent millions of metres of carpet going to landfill every year.
